

Description

Rio

Its practical opening mechanism makes Rio an excellent solution in terms of ease of use. Ideal for both commercial use (hotels, restaurants...) and residential use (villas, private gardens). Aluminium framework, rotating 360° around its base, and easy pulley opening mechanism. Stainless steel hardware. The ribs can be replaced individually without needing to disassemble the entire structure and the canopy fabric is easily removed for maintenance or replacement. Rio can be supplied with a freestanding base or in-ground mount. All FIM products are designed and made in Italy, using the best materials for outdoor use, in order to guarantee exceptional durability even under the most demanding environmental conditions.

Materials

Solution dyed Acrylic Fabric

Designed for outdoor use, the solution (spun) dyed acrylic fabric resists salt water, chlorine and any type of harsh climate. Colours do not bleed and remain vibrant for a long time. A specific treatment makes the fabric water repellent, mould resistant and protects it from staining. This type of fabric resists the most extreme conditions and is suitable for year-round use in gardens, terraces, pool sides or on-board boats. It's definitely the top choice canopy fabric to select for your Product. UPF 50+ (UV Protection Factor) 280 gr/m2.

Finishes

The materials used have been specifically selected and treated to maintain our products durability and consistency over time. The lumber we source is the best available to guarantee structural integrity and strength of the product. The aluminum profiles are powder coated or anodized to ensure a longer durability in time. The colors may differ from the real ones.
